INDUSTRIAL ROADS WANT ALLOWANCES

Will Ask I. C. C. to Let Them Receive Part of Through Rates from Trunk Lines.

The Interstate Commerce Commission will be requested by several of the in-dustrial railroads affected by the com-mission's opinion in the industrial lines case to permit the trunk line railroads to continue to pay to them certain divi-sions of the through rate. The commis-sion in its recent opinion condemned nearly all of these divisions as a form f rebating and, therefore, in violation

f law.

Certain railroads, however, operating in connection with plants of the United States Steel Corporation, it was in-imated in the commission's opinion, should be permitted to continue to reeive certain allowances. It will be contended that the service performed by certain of the industrial lines are not plant facility services, but real, inde-pendent freight services, and that even if owned by a plant the line should receive a proportion of the through freight rate as at present. The commission made no formal order in this case, but suggested to the carriers that they can-cel as soon as possible all the allowances, and if they do not do so the commissi

will make a formal order.

The commission will be asked to reopen the whole case, but it was strongly intimated yesterday that this would not

CASE WILL BE RECONSIDERED AMENDMENT'IS SOUGHT

Vindicated by a coroner's jury yesterday afternoon, Jennie Lewis, alias May Vernon, who Tuesda; morning shot and killed Charles Silverdorss, jr., alias Charles Stewart, at 45 H street northwest, was rearrested in less than an hour by order of Assistant United States Attorney Walter E. Howe.

She was taken to First police precinct and held overnight, pending application today for bail.

The coroner's jury, after hearing the evidence, deliberated for almost three hours. An agreement finally was reached, the jury determining Silverdorss came to his death from gunshot wounds at the hands of the woman, but commenting it believed the homicide was justifiable.

The evidence was to the effect that Silverdors had made numerous threats against the woman. She did not take the stand on her own behalf.

Shouth of the Department of Agriculture will not discuss the decision of the United States Supreme Court in the social did of the Sure and the full decision handed down by the court. This, it is stated, will not be available until tomorrow. Dr. Carl Alsburg, head of the Bureau of Chemistry, is out of town, and Secretary Houston probably will confer with him before a statement is made.

It is admitted at the department, however, that the decision of the court is the averest defeat yet suffered in the evidence was justifiable.

Norris Plan to Call for Statement as to Separation from New Haven Set Aside.

LODGE MAKES STRONG SPEECH

The Senate yesterday voted to table The Senate yesterday voted to table the Norris resolution, calling on the Attorney General for a full statement of the agreement now under consideration between the Department of Justice and the New Haven Railroad as to the divorcing of the Boston and Maine system from the New Haven. The vote on the motion to table came after nearly two hours of debats. urs of debate.

hours of debate.

A speech by Senator Lodge, pointing out the conditions with respect to the Boston and Maine and warning the Senate that the passage of the Norris resolution would put the road into the hands

of a receiver, is largely responsible for the action of the Senate.

Before the vote Senator Norris read a telegram signed by the governor of Maine, mayor of Boston, and other mem-bers of the committee, which purported to represent "a thousand business men, representing boards of trade and cham-bers of commerce throughout New Eugbers of commerce throughout New Eng-land, assembled at Faneuii Hall," enthu-siastically indorsing Mr. Norris' resolu-

Senatore Borah, Bristow, Clapp, Cum mins, La Follette, Norris, and the Pro-Republicans generally voted against tabling. Among the Democrats who voted against tabling were Ashurst, Martine, Pomerene, Robinson, Sheppard, Vardaman, and Thoman.

Senator Lodge commended the action of Attorney General McReynolds and of Gov Walsh, of Massachusetts. He declared the only important point of difference between them was as to the trustee who should administer the Boston and Maine after its separation. Senator Lodge ex-plained that the large minority interest of the stock of the Loston and Maine was held for the most part by people of moderate means and that the shutting off of dividends had been a hardship to
